MANDATORY REQUIREMENTS

For Project Codes in Section B, the corresponding paragraphs in this statement of work shall be considered mandatory requirements, as well as the sections listed below:

- A. Defendant/Person under supervision Reimbursement and Co-payment
- B. Deliverables
- C. Notifying USPO/USPSO of Defendant/Person under supervision Behavior
- D. Staff Requirements and Restrictions
- E. Facility Requirements
- F. Local Services (if applicable)

1. Urine Collection, Instrumented Testing and Reporting (1010)

The vendor shall perform the following procedures related to the collection, testing and reporting of urine specimens:

a. **Storage of Urinalysis Supplies**

The vendor shall:

(1) Store all urinalysis supplies in a secure area with access limited only to authorized vendor employees involved in the collection process.

(2) Prevent defendant/person under supervision access to the secure storage areas.

b. **Secure Collection Area**

The vendor shall:

(1) To the extent possible provide a lavatory only for collecting urine specimens that is not used by staff or others not providing urine specimens.

(2) If the lavatory is used by others not providing a urine specimen the vendor shall:

(a) Limit the possibility of any interference with the collection process or adulteration of the specimen; and

(b) Limit access during the collection process to only those involved in the collection of urine specimens.

c. **Safety Precautions and Collector Training.**

(1) The vendor shall ensure that collectors receive appropriate detailed training that includes a review of the federal OSHA Bloodborne Pathogen regulations (29 C.F.R. 1910.1030). The vendor shall document such training in their personnel file and the employee must certify they have received and understand such training. The vendor shall provide the documentation to the USPO/USPSO upon request.

(2) The vendor shall ensure that all personnel handling urine specimens wear disposable gloves designed for protection against bio-hazards, and are familiar with standard precautions for handling bodily fluids.

d. **General Urine Specimen Collection Procedures**

(1) The vendor shall ensure defendants/persons under

supervision:

- (a) Remove jackets, coats and large pocket items before entering the collection area.
- (b) Leave purse or other carried items outside the collection area, or in the control of the specimen collector.
- (c) Rinse their hands in cold water and thoroughly dry them prior to voiding to remove any adulterant from under the fingernails or on the skin.
- (d) Roll up long-sleeved shirts or blouses so the collector can examine defendant's/person under supervision's arms to detect tampering devices or adulterants.

(2) The vendor shall ensure that the collectors:

- (a) Verify the identity of the defendant/person under supervision by means of a state driver's license, state identification or other acceptable form of photo identification.
- (b) Collect specimens from only one donor at a time. Both the donor and the collector shall keep the specimen bottle/container in view at all times prior to it being sealed and labeled.
- (c) Complete a Chain of Custody or NIDT Collection Form (provided by the USPO/USPSO) before a defendant or person under supervision voids following the chain of custody procedures, and then unless the vendor is using an NIDT that yielded a negative result, peel the Barcode label from the Chain of Custody form and place it on the bottle.
- (d) Collect a minimum of 30 milliliters of urine to allow the laboratory to conduct the initial presumptive screen and confirmation tests. A specimen with less than 10 milliliters of urine is not acceptable for testing and shall not be submitted as the laboratory will not test it due to insufficient quantity.
- (e) Not flush urinals until the collection is completed and the defendant/person under supervision has left the urinal area (a coloring agent is not necessary).
- (f) Observe and document any indication (unusual color, odor) of specimen dilution and/or adulteration, or any unusual collection events or discrepancies.
- (g) Screw the top on the bottle or ensure the

defendant/person under supervision tightly screws the top on the bottle, and that the top is secure to the bottle and is not leaking.

(h) Review the temperature of the specimen to determine if it is near body temperature, if applicable. The temperature of the specimen should be measured within 4 minutes of collection and should be within a range of 90 - 100 degrees.

(i) Use a tamper evident seaming system (e.g., tape) across the top of the bottle cap and down the sides of the bottle, and initial the evidence tape. (This procedure is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample).

(j) Sign the Specimen Collection Statement of the Chain of Custody Form. This is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample.

(k) Have the defendant/person under supervision sign or initial the Chain of Custody Form. This is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample. The donor and collector shall not sign the certification area of the form until the collection process is completed.

e. **Observed Urine Specimen Collection Procedures**

The vendor shall:

(1) Directly observe defendants/person under supervision voiding into a specimen collection container. Collectors observing the voiding process shall be the same gender as the defendant/person under supervision providing the specimen (no exceptions).

(2) The use of mirrors is acceptable if the mirrors aid the collector in viewing the voiding process. The USPO/USPSO must approve such use of mirrors.

(3) Notify the USPO/USPSO within 24 hours if the defendant/person under supervision fails to report for a drug test or does not provide a urine specimen that is suitable for testing (e.g., an insufficient amount, stall, adulterated).

f. **Unobserved Urine Specimen Collection Procedures**

The vendor shall perform the following urine specimen collection procedures if circumstances prevent the observed collection of a specimen. The vendor shall

ensure that collectors:

- (1) Take unobserved specimens **only** when the defendant/person under supervision and the collector are not of the same gender or it is virtually impossible to collect an observed specimen. If circumstances necessitate the collection of unobserved specimens, the vendor shall contact the USPO/USPSO for approval.
- (2) Clearly document on the Chain of Custody Form or NIDT Collection Form any unobserved collection.
- (3) When using NIDTs for unobserved collection of a specimen, ensure that an adulteration test is performed that at a minimum includes temperature, pH and specific gravity tests. Adulteration test panels are performed on all specimens sent to the national laboratory for testing.
- (4) Use a temperature strip to measure urine specimen temperatures which should range between 90 and 100 degrees Fahrenheit. The time from voiding to temperature measurement is critical and in no case shall exceed 4 minutes.
- (5) Obtain a second specimen from defendants/person under supervision whose urine specimen temperature is outside the range in (4) above.
- (6) Place a blue or green colored toilet bowl cleaner or coloring agent in the commode to deter dilution of the specimen with commode water.
- (7) Pour the coloring agent into the bowl when using commodes without holding tanks (e.g., commercial commodes).
- (8) Follow all general collection procedures in subsection d above.
- (9) Secure any source of water in the area where the collection occurs, by either shutting off the water or securing its access with tamper evident tape.
- (10) Remove and/or secure any agents that could be used in an attempt to adulterate the specimen, such as soaps, cleaners and deodorizers.

g. **Urine Specimen Mailing and Storage** (For specimens shipped or transferred to contract national drug testing laboratories or on-site instrumented drug testing laboratories).

The vendor shall ensure that:

(1) Every specimen shipped or transferred to a testing facility is contained in a bottle or container specifically designed to withstand the rigors of transport. All bottles and containers shall be provided by the Judiciary. NIDT cups/bottles may only be used for shipping with the advanced approval of PPSO. Vendors shall seek approval for each type of NIDT device intended for shipping.

(2) The collector places the specimen and corresponding Chain of Custody Form or NIDT collection form in the approved shipping container and places such containers in the custody of an approved delivery service or courier;

(3) The collector notifies the shipper/delivery service/courier that specimen(s) are ready to be delivered to the laboratory. This notification shall be given no later than the close of business the day the specimens are collected.

(4) Urine specimens are refrigerated if specimens are retained and not shipped the same day.

(5) Refrigerated urine specimens are not retained **longer than** 48 hours before they are sent to the laboratory. If urine specimens are retained longer than 48 hours the specimens must be frozen.

(6) Urine specimens are stored in a secure area or locked refrigerator/freezer with access limited only to collectors or other vendor authorized personnel. The refrigerator temperature shall not exceed 43 degrees Fahrenheit and its temperature should be periodically monitored and documented.

h. **“No Test” Policy**

The urinalysis laboratories under contract with the AOUSC **will only test** urine specimens if all of the following conditions are met.

(1) The specimen bottle contains no less than 10 milliliters of urine.

(2) The specimen security seal or tamper evident system (e.g., tape) is present and intact.

(3) The specimen bar code label is present.

(4) The specimen is accompanied by the Chain of Custody Form.

(5) The specimen identifier (i.e., bar code number) on the bottle is identical to the number on the Chain of Custody Form.

(6) The collector's signature is on the Chain of Custody Form.

When any of the above conditions are not met, "No Test" will be stamped on the request report form and the reason for the no test will be checked or written in the space provided. Specimens that cannot be tested will be discarded. The vendor shall ensure that **all** of the above conditions are present for specimens sent to the national drug testing laboratories for testing.

i. Random Urine Specimen Collection Procedures

The vendor shall provide random urine specimens collections in accordance with the following:

(1) Urine Collection

In accordance with the principle of "smarter" drug testing, the frequency of testing that is appropriate is based on the person under supervision's individual characteristics. This may include, but is not limited to, the following factors: 1. type of drug(s) being used; 2. tests' detection capabilities and windows of detection; 3. the person's history of use (age of onset, frequency, and method of use); 4. screening results and clinical diagnoses; 5. treatment history; 6. duration of abstinence; 7. history of relapse; and 8. relationship between the person's drug use and criminal activity.

(2) The vendor shall collect random urine specimens when the defendants/person under supervision have less than 24 hours' notice that a urine specimen is to be submitted.

(3) The vendor shall not alter a randomly scheduled urine collection without the approval of the USPO/USPSO. The frequency of random urine collections shall be determined and authorized by the Program Plan (Probation Form 45).

(4) Upon request of the USPO/USPSO the vendor shall develop and operate an automated phone notification system for random urine collections. The vendor shall obtain the approval of the USPO/USPSO for the design and operation of the phone-based system before putting it into use.

j. Urine Specimen Collection Records and Reports

(1) Urinalysis Testing Log

The vendor shall maintain a log approved by the USPO/USPSO for all urinalysis specimens collected which shall indicate:

- (a) Defendant's or person under supervision's name and PACTS number.
- (b) Collection Date
- (c) Specimen ID/Chain of custody (bar code) number.
- (d) Drugs or medications prescribed and date taken.
- (e) Collector's initials.
- (f) Special tests requested, and
- (g) Test results and date received (if applicable)
- (h) Co-pay collected (if applicable)

NOTE: Allowing anyone undergoing treatment to see the names or signatures of defendants/person under supervision violates federal confidentiality regulations regarding disclosure of drug or alcohol treatment records.

k. National Contract Urinalysis Laboratories

Urine specimens are analyzed under a separate contract with the AOUSC. The vendor shall notify the USPO/USPSO of positive specimen results reported from a national laboratory within 24 hours. Upon award, the USPO/USPSO shall notify the vendor that it uses a national contract testing laboratory and provide supplies and instructions for the shipping and handling of specimens.

l. Onsite Screening Urinalysis Laboratory

Urine specimens are analyzed by onsite laboratories at some locations in probation and/or pretrial services offices. Specimens sent to these facilities shall be processed in the same manner as listed above. Upon award, the USPO/USPSO shall notify the vendor that it uses an on-site testing laboratory and provide supplies and instructions for the shipping and handling of specimens.

2. Urine Collection/Testing - Non-Instrumented Drug Testing Devices (NIDTs) (1011):

The vendor shall perform the following procedures related to the collection, testing and reporting of urine specimens using NIDT devices provided by the USPO/USPSO:

a. Storage of Urinalysis Supplies

The vendor shall:

- (1) Store all urinalysis supplies in a secure area with access limited only to authorized vendor employees involved in the collection process.
- (2) Prevent defendant/person under supervision access to the secure storage areas.

b. **Secure Collection Area**

The vendor shall:

- (1) To the extent possible provide a lavatory only for collecting urine specimens that is not used by staff or others not providing urine specimens.
- (2) If the lavatory is used by others not providing a urine specimen the vendor shall:
 - (a) Limit the possibility of any interference with the collection process or adulteration of the specimen; and
 - (b) Limit access during the collection process to only those involved in the collection of urine specimens.

c. **Safety Precautions and Collector Training.**

- (1) The vendor shall ensure that collectors receive appropriate detailed training that includes a review of the federal OSHA Bloodborne Pathogen regulations (29 C.F.R. 1910.1030). The vendor shall document such training in their personnel file and the employee must certify they have received and understand such training. The vendor shall provide the documentation to the USPO/USPSO upon request.
- (2) The vendor shall ensure that all personnel handling urine specimens wear disposable gloves designed for protection against bio-hazards, and are familiar with standard precautions for handling bodily fluids.

d. **General Urine Specimen Collection Procedures**

- (1) The vendor shall ensure defendants/person under supervision:
 - (a) Remove jackets, coats and large pocket items before entering the collection area.
 - (b) Leave purse or other carried items outside the collection area, or in the control of the specimen collector.
 - (c) Rinse their hands in cold water and thoroughly dry them prior to voiding to remove any adulterant from under the fingernails or on the skin.

- (d) Roll up long-sleeved shirts or blouses so the collector can examine defendant/person under supervision's arms to detect tampering devices or adulterants.
